

# Doctor Script for X-ray Analysis

**Computed Radiographic Mensuration Analysis (CRMA) service:**  
A DXD report will be furnished for your practice to allow the Doctor to have more objective evidence to locate, define and quantify your patient's ligament laxity injuries. The DXD report will correlate the findings with the AMA guides in a 12-15 page illustrative report.

**CRMA SERVICE:**  
**Requires the following information:**

1. Patient Name \_\_\_\_\_
2. Patient Address \_\_\_\_\_
3. Patient Telephone \_\_\_\_\_
4. Date of Birth \_\_\_\_/\_\_\_\_/\_\_\_\_
